If Opportunity Doesn't
Knock, Build *Door.*

ABOUT US

Our Company is Leading manufacturer and supplier of high-quality wooden doors, dedicated to enhance the beauty, security and functionality of homes and businesses. with a commitment to craftsmanship and innovation, we offer a wide range of custom and standard wooden doors to meet the diverse needs of our clients.

Founded in 1999, Our Company has grown from a small workshop into a renowned name in the door industry Our journey began with a passion for woodworking and a desire to create doors that are not only functional but also aesthetically pleasing. Over the years, We have expanded our products line and invested I n state - of-the-art technology to deliver products that meet the highest standards of quality and durability.

Our Mission is to craft exceptional doors that combine timeless design with modern innovation. We strive to exceed customer expectations by proving personalized solutions and unparalleled customer service. At we believe that every door is a gateway to a unique experience and we are committed to making that experience extraordinary

Vision

To be the most trusted and innovative wooden door manufacturer globally, setting new standards for quality, design and customer satisfaction.

At Our Company, We combine traditional woodworking techniques with modern technology to create doors that are both beautiful and durable. Our skilled craftsmen select the finest wood, carefully crafting each door to meet exact specifications. Our manufacturing process includes rigorous quality control checks to ensure that every door meets our high standards.

Sustainability Practices

We are committed to sustainability and responsible sourcing. All our wood is sourced from certified suppliers who adhere to sustainable forestry practices. Additionally, our production process minimizes waste and maximizes efficiency, contributing to a healthier planet.

Anatomy of a wedged mortise and tenon joint.

We follow traditional mortise and tenon joinery which connects two pieces of wood. This woodwork joint consist of a tongue that is secured into a slot and it is used in areas such as door joints

Woodworkers around the world have used it for thousands of years to join pieces of wood. For structural areas like these the joint must be tight fitting to ensure maximum strength but also to achieve a neat flush look, mainly when the adjoining pieces connect at right angles hence this door making method produce a solid and superior quality door.

NOTE :

- ☞ No warranty against Nature effects Like: Sun Crack | Weather Effect | Door Sinkage.
- ☞ Don't Trim (Cut) Once more than 25mm on each side, or it will result in degradation of door style, internal frame to weather causing long term damage and reduce the product life.
- ☞ Since ours is a natural product, there are chances of some variation in shade, grain & design.
- ☞ We reserve the right for variations in shade, grain & design due to Natural Raw Material Variations.
